Introduction : Changing Landscape of Law Enforcement

Law Enforcement in the United States is at a crossroads. From the increasing pressures of public scrutiny and accountability issues that departments are grappling with to shortages of staff and resources at multiple levels.

GUNTRACK is positioned to provide a valuable and secure technology platform and service to manage inventory in a real-time. Our inventory management solution will give your department positive visibility along with mitigating further risks associated with lost firearms and ammo from your armory department. Makes handling your inventory a breeze. Custom tailored for your department.

- Easy to use
- Customized to your department
- Cost effective
- Fast deployment

Proven consumer version. Highly rated.

2. GUNTRACK INVENTORY MANAGEMENT SOLUTION

www.guntrack.app/pd-inventory-management

Recent Engagement with Police Department

A high profile police department expressed an interest for a solution to track and manage firearms.

REQUIREMENTS: The department has approximately 550 firearms, and 550 officers.

EASY/FAST INTAKE PROCESS – allow for the fast Bar code or QR code scanning of new firearms bought by the agency.

SIMPLE ASSIGNMENT TO PO. – Simple drag and drop at the time of intake of firearms or after intake of firearms. Easily assign the new firearm that are currently in the armory or manually add to officer.

OFFICER INTERFACE LOGIN – Officers can quickly access their firearm record details to add round counts for training records, track accessories, ammo, or basic cleaning and maintenance is desired.

ADMIN INTERFACE LOGIN – Admin can easily access all department records of all firearms and can add, assign, or print record information.
